

Darshit Patel

EUC & Windows Server Tech Lead | Endpoint Management Specialist

Stanmore, London (HA7) · E: DarshitPatel@hotmail.com · M: 07984 528658

PROFESSIONAL SUMMARY

Senior EUC and Windows Server specialist with 15+ years delivering secure, scalable, and modern endpoint solutions across financial services, healthcare, and public sector environments. Expert in Intune, MECM/SCCM, Azure AD/Entra ID, Windows 11, macOS, and enterprise security baselines. Known for driving cloud-first endpoint strategy, automation, compliance, and operational excellence while collaborating closely with security, infrastructure, and business stakeholders.

CORE COMPETENCIES

- Modern Device Management (Intune, Autopilot, AVD, macOS Platform SSO)
- Microsoft Infrastructure (AD, MECM/SCCM, GPO, Windows Server)
- Cloud & Security (Azure AD/Entra ID, Defender, CIS Benchmarks, Secure Boot)
- Endpoint Security & Compliance (LAPS, vulnerability remediation, baselines)
- Automation & Scripting (PowerShell, compliance reporting, remediation)
- Enterprise Application Packaging & Deployment (Windows & macOS)
- Project Delivery (Agile/Scrum, stakeholder engagement, vendor management)

PROFESSIONAL EXPERIENCE

Senior Client Technology Analyst (EUC) Janus Henderson Investors, London — Permanent	Aug 2024 - Aug 2025
• Managed enterprise Windows and macOS endpoints using Intune, MECM/SCCM, Entra ID, and Citrix. • Led CIS baseline design, testing, and deployment for Windows 11, M365 Apps, Edge, and Chrome. • Delivered modern management initiatives including macOS Platform SSO, LAPS, and cloud-first endpoint strategy. • Partnered with Information Security to implement endpoint hardening controls and manage policy exceptions. • Built PowerShell automation, remediation scripts, and compliance dashboards to improve endpoint health. • Led Secure Boot certificate migration, vulnerability remediation, and compliance tracking. • Managed enterprise application packaging, deployment, and lifecycle for Windows and macOS. • Troubleshoot complex issues across Windows, macOS, SCCM, Intune, authentication, Citrix, and compliance. • Authored technical documentation, implementation guides, and training materials. • Coordinated ring-based deployments of endpoint changes and security controls. • Supported global patch management, ensuring high compliance and timely remediation.	
Senior Windows Engineer (EUC) — SC Clearance until 2030 Zero-Plus Ltd. — Contract	Feb 2026 - Current
• Delivered daily support for enterprise endpoints via VMware Workspace ONE UEM. • Troubleshoot Windows, macOS, iOS, and Android authentication, SSO, and configuration issues. • Collaborated with security teams to remediate vulnerabilities and optimise UEM policies.
